

# Certificate of analysis acceptance policy

SYNTHETIC DOCUMENT - fictional data generated for the OpsPilot prototype. Not a real specification.

Each batch is compared parameter by parameter to the product specification.

FAIL: a critical parameter is out of specification by more than its review margin.

REVIEW REQUIRED: any parameter missing or unreadable, a miss within the review margin, or a non-critical parameter out of specification.

PASS: every specified parameter is within limits.

A qualified person must sign off every REVIEW REQUIRED or FAIL batch.
