

Class 3 flammable liquids - shipping notes

SYNTHETIC DOCUMENT - fictional data generated for the OpsPilot prototype. Not a real specification.

Class 3 products require UN-approved packaging, hazard labels and a dangerous goods declaration.

Sea freight carries a hazmat surcharge on the freight charge (see shipping rate table).

Keep away from ignition sources; ventilated storage; grounding during transfer.

Products affected in the synthetic catalogue: CHEM-X02, CHEM-X04, CHEM-X14, CHEM-X20.
