

# Trevalone Intermediate (CHEM-X19) - Specification Sheet

SYNTHETIC DOCUMENT - fictional data generated for the OpsPilot prototype. Not a real specification.

Product code: CHEM-X19

Product name: Trevalone Intermediate

Category: Agro Intermediates

HS code (synthetic): 293499

Transport classification: Class 6.1

Description: Toxic nitrogen heterocycle intermediate for herbicide synthesis.

Typical applications: ink and cleaning products, plastics compounding.

Specification limits:

- purity:  $\geq 98.0\%$  (critical, review margin 0.1)
- moisture:  $\leq 0.1\%$  (critical, review margin 0.02)
- color\_apha:  $\leq 15$  APHA (non-critical, review margin 5)
- residual\_solvent\_ppm:  $\leq 1000$  ppm (critical, review margin 50)

Storage: Store at ambient temperature in sealed drums.

Standard packaging: 25 kg multiwall bags.

Shelf life: 36 months in unopened original packaging.

Incompatible with: moisture.

Handling note for Trevalone Intermediate (CHEM-X19): use appropriate PPE and follow the SDS.
